Subject: LAGS Screening

Curaçao, March 13, 2013

To all concern,

This is just a reminder on the introduction of liquids, aerosol and gels (LAGs) checks that will be introduced on March 15, 2013 at Curacao International Airport, Aereopuerto Hato. The LAGS / Shoes screening will be conducted at the checkpoints.

PROCEDURE

1. All passengers entering at a screening point will only be allowed to carry one quarter-sized, clear zip to bag with 3.4 oz. (100 ml) or smaller containers with liquids and gels. (3.1.1.)
2. Passengers must present with their 3.1.1. separately from their hand baggage at the security checkpoint.
3. The LAGs must be fit comfortably in the transparent plastic zip top bag (containers).
4. LAGs in a container larger than 100ml is unacceptable even if the container is partially filled.

TRANSIT AND TRANSFER PASSENGERS

1. LAGs in any volume that have been purchased at airport outlets or on board of an aircraft are not permitted through Security Check-point 1.
2. All transit and transfer passengers must comply with the 3.1.1.

3. STEBs are not allowed via Check-point No. 2 nor Check-point No. 1.

With reference to the above we Curacao Civil Aviation Authority (CCAA) will remind you to inform all your stations abroad that if Curacao is being used as a secondary departure all transit and transfer passengers shall undergo the LAGs checks (screening).

All LAGs items that have been purchased in other station or onboard an aircraft will be confiscated.

Sincerely yours,

Victor E. Krips Jr.

Curacao Civil Aviation Authority
